

Harshit-Learn

AI-Powered Future Learning with AR/VR, AI Guidance & Peer-to-Peer Skill Exchange

Learn • Build • Share • Grow

Designed & Developed by Bhalani Harshit

Founder & Developer

Bhalani Harshit

Full-Stack Developer | AI & ML Enthusiast

Engineering Student dedicated to building scalable tech platforms and exploring the frontiers of Artificial Intelligence.

Artificial Intelligence

Full-Stack Development

Scalable Tech

AR/VR Immersive Learning Experience

Learn physics, history, and engineering using immersive simulations and virtual labs.

Virtual Labs

Hands-on experiments in safe virtual environments.

Historical Simulations

Experience historical events and periods firsthand.

Engineering Models

Understand complex machinery and systems through 3D visualization.

AI Teaching Assistant - Your Personal Learning Guide

AI analyzes your progress and recommends personalized learning paths in real time.

Real-time Progress Analysis

AI monitors your learning patterns and identifies knowledge gaps.

Personalized Recommendations

Get course suggestions tailored to your learning style and goals.

Adaptive Learning Paths

Content difficulty adjusts based on your performance.

24/7 Support

Always available to answer questions and guide your learning journey.

Luxury AI

10,000 Courses and 10,000,000+ Users

Student Testimonials - Real Success Stories

“

**James Wilson -
Engineering Student**

"The VR engineering labs transformed how I understand complex concepts. It's like being inside the machine!"

”

“

**Sophia Lee - Data Science
Bootcamp**

"Trading my design skills for Python lessons was a game-changer. The skill marketplace is brilliant!"

”

“

**Carlos Mendez - Medical
Student**

"The AI learning assistant identified my weak areas and created a personalized study plan. My grades improved by 30%!"

”

Your Learning Journey - Four Simple Steps

Start your future learning journey in four simple steps.

Create Account & Set Goals

Sign up and define your learning objectives, interests, and skill level.

Learn with AR/VR & AI Mentor

Access immersive learning modules guided by your personal AI assistant.

Track Progress with Analytics

Monitor your improvement with detailed insights and performance dashboards.

Exchange Skills Globally

Connect with learners worldwide to exchange skills and knowledge.

Explore Harshit-Learn Today

Ready to experience the future of learning? Visit the live project and start your learning journey now. The platform is fully functional with AR/VR experiences, AI-powered guidance, and a thriving skill exchange community.

Project

Harshit-Learn

The Problem in Today's Learning System

Traditional education models are struggling to keep pace with the rapidly evolving digital economy.

Passive Learning

Current platforms are often one-way and lack interactive engagement.

Gap in Practical Skills

Students lack exposure to real-world, skill-based practical applications.

Isolated Ecosystems

Lack of strong community-driven skill-exchange environments.

Static Tracking

Difficult to monitor real progress with limited AI-driven guidance.

Our Solution: Harshit-Learn

A comprehensive AI-powered ecosystem designed to bridge the gap between knowledge and mastery.

Skill-Based Learning

Interactive modules focused on practical execution.

Empowering Providers

Enables experts to create, publish, and monetise courses.

AI Personalisation

Smart algorithms tailor learning paths to individual needs.

Verified Growth

Real-time tracking and industry-standard certifications.

Key Features

Secure Auth

Robust JWT-based authentication for data security.

Course Publishing

Seamless tools for creating and sharing knowledge.

Progress Tracking

Visual analytics to monitor your learning journey.

AI Experience

Intelligent guidance throughout the platform.

Certifications

Earn rewards for completing milestones.

Dual Roles

Dedicated portals for Students and Skill Providers.

Technology Stack

Built with a modern, scalable architecture to ensure high performance and reliability.

Frontend

HTML, CSS, JavaScript

Backend

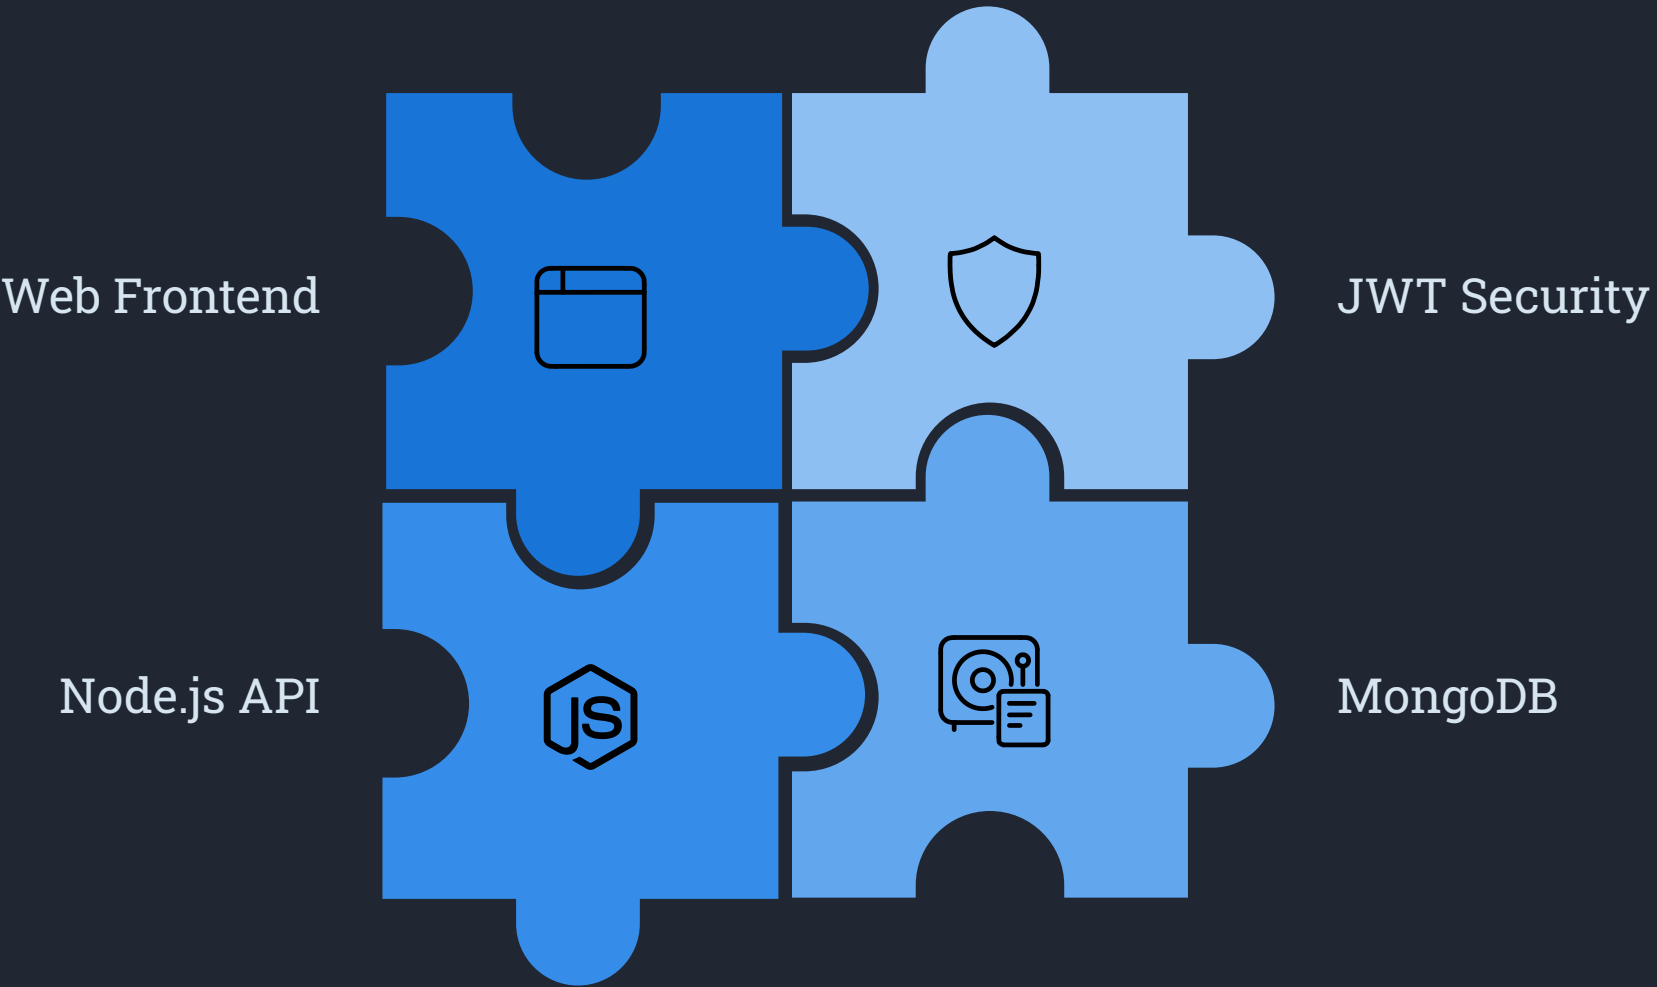

Node.js, Express.js

Database

MongoDB (NoSQL)

Security

JWT Authentication

Architecture: REST APIs | Deployment: Scalable & Modular

Platform Workflow

01

Registration

Secure user signup and login.

02

Role Selection

Choose between Student or Skill Provider.

03

Course Management

Publishing or enrolling in courses.

04

Active Learning

Progress tracking and content consumption.

05

Completion

Final assessment and certificate generation.

Smart Certification System

- Auto-generated digital certificates
- Unique Certificate ID for verification
- Professional, LinkedIn-shareable design
- Proof of skill & course completion
- Startup-grade credibility

A vertical image on the left side of the slide showing a futuristic cityscape at night. The scene is dominated by blue and cyan light. Tall skyscrapers are visible, with some having glowing windows. A bright, vertical beam of light cuts through the center of the city, extending from the bottom to the top. The overall atmosphere is high-tech and visionary.

The Future of Learning is Here.

Harshit-Learn

Thank you for your time. Let's build the future together.

"Innovation distinguishes between a leader and a follower." — Harshit-Learn Vision
